A World of Difference...

IN CRITICAL PIPING CONNECTIONS™ SINCE 1968

Flex-Hose Co., Inc.

Traditions Will Never Mean Limits.

We understand that no customer's requirements are exactly the same. That our audience is targeted to engineers/designers and construction contractors whose responsibilities are to oversee costs and quality in the physical realm of installation of piping systems to existing and newly constructed buildings.

That's why Flex-Hose Co. pays so much attention to the details of your experience. Our employees will greet you in such a way that says we truly care and appreciate the opportunity to meet your performance expectation. Flex-Hose Co. personnel have the technical training and ability to provide solutions to the most demanding application. Our support also extends through specific job analysis services which recommends placement of product location in a piping system, perfectly integrating them into the overall theme of your project, saving you both time and money. This is the result of staying true to what is essentially right.

Anything Worth Doing is Worth Doing Right.

It's not very hard to understand that people are influenced by innovation, long-term reliability, ease of installation, and extreme cost savings. It's a no-brainer. This essence is built into the very fabric of our business and products since 1968.

Flex-Hose sets the standards for innovation and engineering brilliance with the patented Tri-Flex Loop®, quite literally the envy of the industry. Our renowned products are backed by the best warranties in the business that other manufacturers find easier to talk about than to duplicate.

Flex-Hose UL listed and labeled products are tested, listed, labeled and regularly inspected by Underwriters Laboratories to ensure they meet or exceed industry performance standards. Our products have also been inspected and tested by the Technical Standards & Safety Authority of Canada, and hold a CSA Standard B51 Certificate to meet the high quality standards of the Canadian market.

So enjoy years of service with our flexible piping connections. Flex-Hose Co. products give you that choice. Don't compromise.

Phil Argersinger, *President/Owner*
