Multiple Sizes Available!

Threaded
1/2" to 4" I.D.

Grooved
2" to 12" I.D.

Flanged
2" to 12" I.D.

Hanger Assembly Kit and Accessories

Save Labor Costs with these FHU-Loop Accessories!

The UL Listed Seismic Wire Rope/Cable™ used in our hanger assemblies conform to the requirements of the ASCE (American Society of Civil Engineers) guidelines for structured applications of wire rope, in that the cable is pre-stretched and the permanent end fittings maintain the break strength of the cable with a safety factor of two.

- Color Coded
- Pre-stretched
- Break strength Certified

Color coded, factory cable cutter & crimper to meet cable specifications

Color coded for flexible pipe loop installation of up to 8" diameter

Color coded for flexible pipe loop installation of 10" and larger in diameter

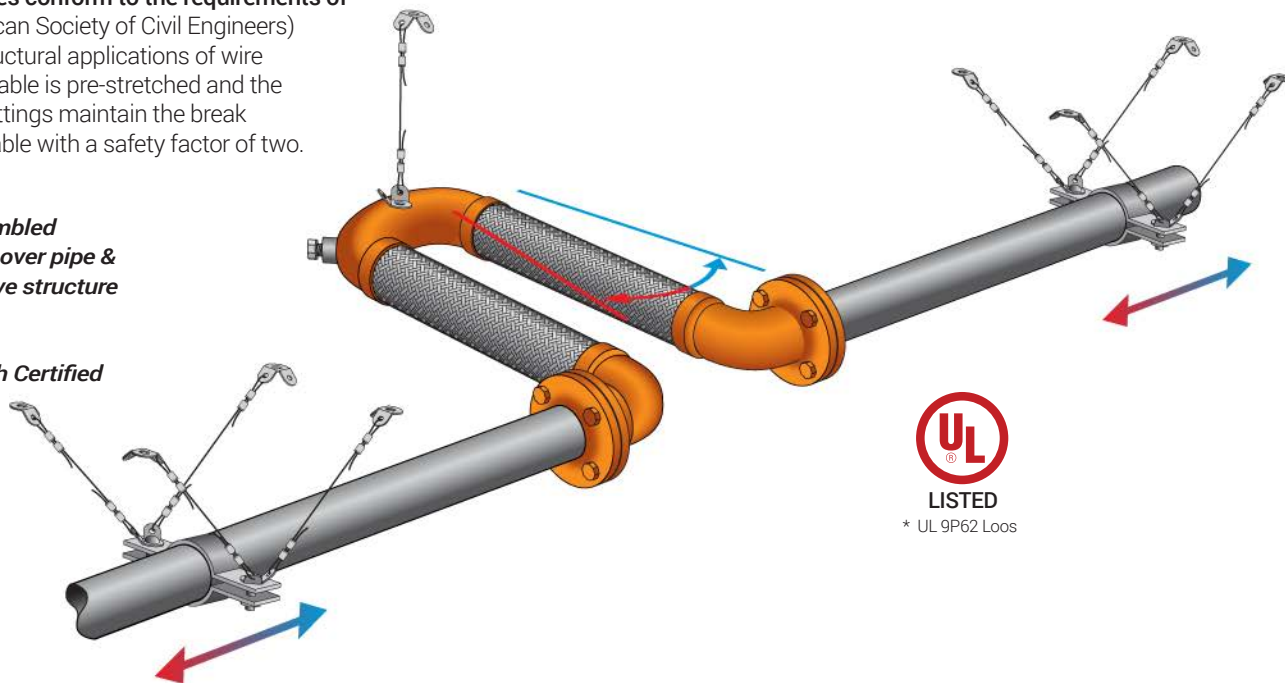

Factory Cable Anchor Kit

It's simple, reliable & it reduces pipe anchoring costs!

The FHU-Loop Factory Cable Anchor Kit saves valuable time on FHU-Loop installation, making it easy to anchor the piping system when using flexible pipe loops.

The UL Listed Seismic Wire Rope/Cable™ used in our hanger assemblies conform to the requirements of the ASCE (American Society of Civil Engineers) guidelines for structural applications of wire rope, in that the cable is pre-stretched and the permanent end fittings maintain the break strength of the cable with a safety factor of two.

- Color Coded
- Factory Assembled
- Simply install over pipe & fasten to above structure
- Color Coded
- Pre-stretched
- Break strength Certified

LISTED
* UL 9P62 Loos

A world of difference in critical piping connections since 1968.™
